WORK EXPERIENCE

Consultant

KlafTech Data Systems LLC

Jan 2006 - current / Greater New York City Area

- Owner of a software consulting company, specializing in streamlining business growth and operations by analyzing clients' industries and providing tailored software solutions, guidance, and development to ensure the highest level of client success.

Chief Information Officer

EarthKosher Kosher Certification Agency

Nov 2017 - current

- Responsible for day-to-day systems management, coordinating development, maintaining standards and workflows to ensure data integrity and support business growth, while effectively communicating with key stakeholders to align objectives.
- Collaborated with co-workers across various departments to gather requirements, design and develop unified in-house solution, streamlining operations and boosting revenue.
- Managed team over multi-year phased project, with languages including HTML/CSS, JavaScript, Yii Framework, PHP, XML and Google Apps Script.
- Following successful software implementation, adapted it for SaaS and white-label licensing.

Data Management Consultant

Mesila Financial Counseling

Jan 2020 - Mar 2020 / Jerusalem, Israel

- Responsible for overhauling the non-profit organization's entire data management and structuring to streamline operations between international branches.
- Leveraged existing Zoho CRM by using its proprietary Deluge programming language to customize workflows and automate business processes, thereby reducing backend office tasks and cutting administrative costs.
- Developed in-house web app using PHP, JavaScript, and HTML/CSS integrated with the Zoho API to allow counselors to manage clients and submit notes and reports.

Internship

Kars4Kids

July 2016 - Aug 2016 / Lakewood, New Jersey
